

# Buffalo Creek Two Year Old Bulls

These Herd Bulls were in last year's pasture group of bulls. They were chosen for their performance and pedigree and were used to clean up our cows that summer. They were also used this past breeding season. They know how to take care of

themselves and manage under drought conditions without falling apart. Check our website for current photos of these good sires.

1/2 Interest in Ambush was sold in our April 2003 sale to the Lehmanns in Ontario. We used him both A.I. and naturally that summer, and, he was never able to get to Canada.

Ambush exudes quality any way you look at him, and his first calves appear to be very promising. Sired by Cherokee, his dam is Amber 3912, DON-5, one of Dynamo 732's best daughters. Fertile, maternal and beautiful, she is dam to high performing bulls, and lovely, productive daughters. Ambush is a maternal brother to Lot 5. Cherokee Patriot M183, Lot 1 in our April 2003 sale, is a full brother that sold to the Hamilton Ranch in Montana. SELLING 1/2 INTEREST & FULL POSSESSION.

We selected M156 to use in our clean up group because of his great performance on grass, and the excellent genetics behind him. The Julies are another "never miss" line of cows, and breed up like clock work every year. 3055, the MGD and now eleven, will have her twelfth calf next spring. M156's sire, 5107, is a \$11,000 son of Amber 3912, DON-5. In the top 9% of the breed for Marbling, his sire, 4358 is in the top 2% of the breed for ME EPD. SELLING 1/2 INTEREST & FULL POSSESSION.

You will find this moderate framed, very deep, very thick, well muscled Barney son. He has Barney's short hair coat, as well as the same really thick muscle pattern. His dam was Marigold 1230, DON-1. Be sure to read up on her in the Reference Cow Section. We used this bull in a multiple sire group as clean up on our cows, and are waiting for DNA results on the calves to see who sired what. There are some very good calves out there from this group. We would like to collect this bull after the sale. **SELLING 1/2 INTEREST & FULL POSSESSION.**

Another thick, deep bodied bull with great performance that we used on our cows. His sire is one of the top carcass bulls in the breed. M354's dam is one that we got on "shares" from our cooperative agreement with the Roberts while they had cows running on us. She is a highly productive cow and will have her ninth calf next spring. **SELLING 1/2 INTEREST & FULL POSSESSION.**

When you see this bull you will wonder about the numbers. He's big, he's strong, and moves out well; he will cover the country for you. His sire was bought by Lowell Kautz and the Kinchens in 2001. A maternal half sib sells as Lot 154.
