105 was a cornerstone of our program, and many of our cows trace back to him. Tried, proven, and

highly predictable, he was a long time Trait Leader for Milk and Stayability. The 1981 National Grand Champion at the NWSS in Denver, 105 was correct from end to end and well muscled, with excellent feet and legs. Highly fertile and with great

*Buffalo Creek VC Chief 105*

libido, his yearling scrotal was 39 cm; he measured 49 cm at the age of two. Over 1000 progeny average 77 lbs at Birth, and Ratio 100 & 101 at Weaning and Yearling. His daughters are superb, with a great deal of depth and volume, and excellent udders. 105 is in the top 12% of the breed for Yield Grade. **SEMEN AVAILABLE.**

One of the breed's heavily used and high Marbling sires. In the top 3% of the breed for Marbling, when

he shows up in a pedigree, the Marbling score is going to be high. From a long-lived line of cows, his dam was still producing at the age of eighteen. Both she and her dam are famous throughout the breed, and the world, as dams to great herd bulls. Like his sire BUF CRK VC Chief 105, Logan's real strength lies in his wonderful daughters. They are solid, highly maternal, highly productive cows. Over 5000

*Glacier Logan 210*

progeny average 78 lbs at Birth, and Ratio 100 at both Weaning and Yearling. Logan is in the top 15% of the breed for Yield Grade. **SEMEN AVAILABLE.**

Words and pictures don't do justice to the amount of muscle Barney carried. A powerful bull, he sires

moderate birth weights, excellent structure, and lots of muscle. Barney's sire was out of Carrie 888, a cow that was a full sib to Carrie 1174, dam to Hobo 1961. Barney daughters are wonderful, productive cows, moderate in size, with excellent udders. With over 1400 progeny, Barney's calves have averaged 83 lbs at Birth, and

*Buffalo Creek Barney 3474*

101 at both Weaning and Yearling. Barney is in the top 19% of the breed for Carcass Weight. **Semen is still available through GENEX CRI.**

### ONE OF THE GREAT CURVE BENDERS

Predictable, reliable, and great,

Cherokee was an extraordinary bull. With over 9100 progeny, he is one of the breed's most heavily used and influential sires. ABS's comments on Cherokee several years ago pretty well sum him up. "He is the Breed's Most Complete Performance and Carcass Sire...His progeny are in demand for their added thickness,

*Buffalo Creek Cherokee Canyon 4912*  
4/14/1997 - 8/28/2007

performance, and carcass traits....he is the complete answer to moderate frame, addition of muscle, and improvement of rib eye with increased marbling."

Cherokee has played a huge role in our program. His progeny are all similar - moderate in frame, long, deep and well muscled. His daughters are lovely, moderate framed cows with excellent udders, and he has too many great sons to count. Today Cherokee is in the top 3% of the breed for Stayability, the top 11% of the breed for Yield Grade, and the top 3% for REA. We thought it fitting that the last bull selling in this sale should be a Cherokee son. **LIMITED SEMEN AVAILABLE.**

The breed's record breaking bull in April of 2003 when 1/2 Interest sold for \$230,000 in the Leachman Sale. Bred and raised by the Raislands, Major League is undoubtedly one of Cherokee's most famous sons. Living up to his price tag, like his sire, he has a tremendous birth to weaning/yearling spread, with excellent numbers for carcass. With over 4700 progeny records, his calves average 78 lbs for BW, and 101 & 102 at wean-

ing and yearling. **SEMEN IS AVAILABLE THROUGH GENEX CRI.**

Bred and raised by Lynn Loosli, Teton's dam has an MPPA of 106. He is another of Cherokee's great

sons. Teton was one of the best bulls in our April 2004 Sale when he sold for \$37,000 to the R2 Ranch and BUF CRK. Teton has tremendous volume, balance and uniformity throughout, and stands on excellent feet and legs. Very moderate in frame, he is one of the thickest, widest bulls we have sold. On a test designed for a 3.00 ADG, Teton gained 4.07 lbs./day. His REA scan was 16.4 for a ratio of 131,

*Loosli Cherokee Teton 316N*

and his marbling was 4.73 with a ratio of 150! Teton's 2009 bulls at BUF CRK averaged 101 at Weaning, 104 at Yearling, and were one of our high gaining groups. Today Teton is in the top 3% for ME, the top 5% for Marbling, and the top 15% for REA. Over 250 progeny average 106 & 101 for IMF & REA. **OWNED WITH LOOSLI RED ANGUS & THE R2 RANCH. In the spring of 2006, Dal Clark bought a group of top BUF CRK cows. 117S was "in dam" at that time. In March 2008 he sold in the Red Hill sale in Kentucky. The Jones' comments at that time were that he had been their pick of the Coyote Hill's bulls during all of the previous summer. He was used on a group of their heifers during Fall 2007. From our Marigold 1230 line of cows, 117S is a high volume, well muscled, moder-

*Coyote Hills A502M M L 117S*

ate framed, easy keeping and very sound Major League son with a wonderful disposition. A bull with lots of libido, he was the dominant bull in our Mult. Sire group in 2008 & 2009, and was used again in our Mult. Sire Group in 2010. His progeny have averaged 84 lbs at Birth, and 101 and 100 at Weaning and Yearling. Owned with Coyote Hills in Kentucky, Red Hill Farms in Tennessee, and the Booth Ranch in Texas. **SEMEN AVAILABLE.**

The Red Hill program is very much in our comfort zone. The Jones' select for moderate sized, easy calving cattle that have low Maintenance Energy requirements, and are strong in Reproductive traits. They are strict on structure, and demand cattle with sound feet, legs, and udder structure, and Julian B571 has been a staple in their breeding program. Red Hill has a loyal clientele of basically commercial cattlemen, but more and more seed stock producers are seeking them out. Their cattle stand up

with the best in the West. 84S is the first of the six bulls we have bought in the Red Hill sales. At \$8100 he was the Jones' high selling bull in 2008. An ET son of B571, his dam is one of Red Hill's premier cows, with an MPPA of 108.9. Moderate in size, 84S is correct and well muscled, with excellent testicles. In our quiet herd of cattle he was exceptionally quiet.

With a tremendous Birth to Yearling spread, 84S is one of the premier, proven calving ease bulls in the Red Angus breed. Over 100 progeny average: BW 73 WR 99, YR 100. His .56 REA EPD ranks him in the top 3% of the breed. He is in the top 5% of the breed for Yield Grade. We have used 84S heavily through AI on both heifers and cows, then as a clean up sire for both. Easy fleshing and easy keeping, he looks as good coming out of the cattle as he does when he goes in.

84S was Lot 1 and the high selling lot in our Feb 2011 sale when 25% Interest Sold for \$30,000 to Ozark Hills Red Angus, and Calvo Family Red Angus. He is also owned with Red Hill Farms. **SEMEN AVAILABLE**

One of the hottest sires in the breed, he is the sire of BUF CRK THE RIGHT KIND U199, the

\$50,000 bull we sold in our February 2010 sale. R017 has a phenomenal BW to YW spread: -1.3 to 95. He is in the top 19% of the breed for CED, 5% for WW, 6% for YW, 24% for ME, 9% for Stayability, 14% for Marbling, and 27% for REA. Tested OSF, his dam is Juliet, a full sib to Romeo. Raised on grass all summer, as all of the "R"

*Buffalo Creek Lancer R017*

bulls were, he was one of the most attractive and fleshiest bulls in our 2006 Fall of-fering when he sold to Mushrush Red Angus in Kansas. He had a 3.21 scan for IMF and 13.0 for REA. Progeny averages from several programs are: BW 77 WR 103 YR 103 IMF 105 & REA 101. R017 is dead, and semen is very limited. His sons will have to carry on his legacy. Ten of them sell in this sale.

A truly impressive bull, and the best R017 son ever to sell. Ex-tremely correct and attractive, he

has a tremendous amount of muscle, a wide and powerful top line, large testicles, and a wonderful disposition. Note his exceptional performance, EPDs, and carcass scans. We look forward to great things from this sire, and his first progeny proof this fall is promising: At catalog time, over 200 calves averaged 72 lbs at Birth for a Ratio of 97 and a WR of 100. **RIGHT KIND SEMEN WILL BE AVAILABLE IN 2012.**

In spite of OS, Romeo was a great bull and has had a huge impact on the breed. Prior to OS he was one of its most heavily used sires with records on over 3400 progeny. Thanks to Dr. Jon Beever and the other molecular geneticists who worked on discovering the marker for OS, we, and others, were able to salvage the non-carrier progeny. They are truly worth salvaging.

*Buf Crk Romeo L081*

Romeo was our high gaining bull in 2001-02. On a test designed for a 3# ADG, Romeo gained 5.13 lbs./day. With EPDs that are remarkably similar to his EPDs five years ago, he still has a tremendous birth to yearling spread: BW -1.7, 27%, YW 80, 18%.

Romeo's daughters are superb. They have the depth and capacity of their dam, and are some of our highest producing cows. A number of them have progeny in this sale.

The high selling bull in Red Hill's March 2009 sale, the Jones commented then that he is one of the best bulls ever produced there. His dam has a 106.2 MPPA. Stacked through the generations for calving ease, low maintenance and performance, he is yet another bull with a terrific Birth to Yearling Spread: -2.8 to 75. He is in the top 1% for ME, 15% for Stayability, and 21% for Yield Grade. Sons sell. Last February, a 25% inter-

# Sale Terms and Conditions

Except for those stated in the terms and conditions below, there are no warranties, either expressed or implied, as to the merchantability or fitness for a particular purpose with respect to the cattle being sold at this auction. The warranties and guarantees set forth in the "Terms and Conditions" are in lieu of all other warranties, either expressed or implied, and the remedies provided therein shall be the sole and exclusive remedy for the Buyer, or any party claiming through Buyer, for any breach of warranty or guarantee therein provided, and all other obligations or liabilities.

All cattle in this sale are offered according to the laws of the State wherein the sale is conducted. The right to bid, as provided under law, is reserved for all sellers unless otherwise announced.

## 1. BIDDING

The Auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

## 2. TERMS

Terms of sale are cash unless satisfactory credit arrangements have been made with Sale Management prior to sale.

## 3. PURCHASER'S RISK

Each animal becomes the risk of the Buyer

as soon as sold, but it shall be the obligation of the Seller to see that animals are fed and cared for free of charge to Buyer, until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner.

## 4. CERTIFICATE OF REGISTRY

A transferred certificate of registry will be furnished to the Buyer for each animal.

## 5. HEALTH

All animals are eligible for interstate shipment, except as otherwise announced. Interstate health papers will be furnished for each animal requiring tuberculosis and brucellosis tests in accordance with Federal Regulations.

## 6. ANNOUNCEMENTS

Any changes from information of any kind in this catalog will be announced from the auction box and such announcements shall take precedence.

## 7. BREEDING GUARANTEE

All females have been ultrasounded for pregnancy by Dr. Mark Schreiber, and found to be safe in calf unless otherwise stated in the catalog, or from the auction block. All bulls were fertility tested by Dr. Schreiber and are guaranteed breeders.

## 8. DEFAULT

In the event the Buyer defaults on payment, the Buyer shall be responsible for all costs, including attorney's costs, incurred by Sale Management or Seller in connection with collecting, or attempting to collect, payment due.

## 9. GENETIC DEFECT AND PARENTAGE GUARANTEE

We are in compliance with the Rules and Regulations of the Red Angus Association of America. All animals that have required testing for Genetic Defects have been tested, and the results are shown for each animal.

## 10. RIGHTS AND OBLIGATIONS

a) The above terms and conditions of sale shall constitute a contract between the Buyer and Seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

b) Unless specifically stated herein, neither the Sale Management nor the Red Angus Association of America shall have any liability for any event or occurrence related in any manner to this sale.

## 11. RETAINED INTEREST

Buffalo Creek is retaining an undivided half interest in each of the bulls selling. We are selling a dividable half interest, full possession, and full salvage value in each bull.
